FIELD GROWN CAMELLIA JAPONICA

These Camellias have been grown, since liners, in full sun under irrigation. In most grades especially 12 to 18 inch and up, they are much heavier and much more compact than similar grades grown in slat houses. Full sun tends to make Camellias branch early, and grow bushy. They are not to be compared with slat house plants.

*Figures after variety denote the size or sizes available in that particular variety.

MEMORANDUM

Fish While You Wait

**BUY A BUSH
AND
BOAT A BASS!**

This irrigation lake supplies not only water for irrigation, but is well-stocked with Bream and Bass.

You're cordially invited to try your luck. Many of our customers bring along their fishing tackle, and while we dig and load their orders, they spend the time fishing.

TERMS OF SALE

TERMS: Cash, unless credit arrangements are made before shipment.

GUARANTEE: We guarantee our stock to be well grown, true to name, and properly packed. In no case shall our liability exceed the original invoice value. Our responsibility ceases on delivery to the transportation company.

SHIPPING: Please give full shipping instructions with each order; otherwise we shall use our best judgment.

PACKING CHARGES at cost will be added to these prices except bare root stock, which is packed free when cash accompanies order.

All prices are f.o.b. Cairo, Georgia.
